INTERIOR PANNELLING

КАТАЛОГ

СЕПТЕМВРИ 2023

"WE LOVE YOUR HOME."

Какво са ДПК панели?

ДПК панелите са изработени от **дървесно-пластмасов композит**, който е смес от **дървесни влакна и термопласт**. Те са изключително **устойчиви на влага, корозия и ултравиолетови лъчи**, благодарение на което имат **дълъг живот**.

ДПК панелите могат да бъдат използвани във **вътрешни облицовки** за създаване на **уникален и модерен интериорен дизайн**. Освен това, те могат да се персонализират с **различни декоративни принтове**, които могат да имитират **дърво, камък или други естествени материали**.

Представяне

Материал:

дървесни влакна и
термопласт

Размери

1220 мм * 2440 мм
1220 мм * 2800 мм
1220 мм * по пърчка мм

Дебелина:

5мм & 8мм

Плътност:

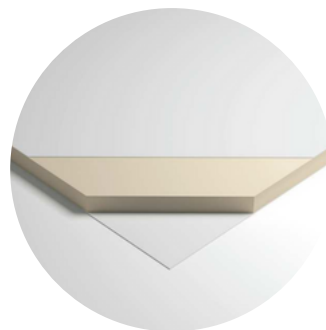

700кг/м³

Свойства:

водоустойчив
гъвкав

Огнеустойчивост:

B1
